PROFILE

As I near the completion of my Bachelor of Computer Application degree, I stand at the intersection of academia and professional exploration. My academic journey has been a dynamic experience, providing me with a comprehensive understanding of computer applications, programming languages, and system design. I have consistently pursued excellence in my coursework, not merely as a student but as an aspiring problem solver, eager to bridge the gap between theoretical knowledge and real-world applications

PROJECTS

MINI PROJECT
E-commerce Website

- E-commerce website with home page, products page, cart page and payment options.
